Manhattan, New York

For sale: \$8,995,000

23 Downing Street is a 3,700-square-foot, single-family residence located in Greenwich Village. The five-floor home boasts a large master suite, three additional bedrooms, four full baths and two half-baths, spacious living areas and 900 exterior square feet, including a private garden and rooftop terrace.

Designed by Turett Collaborative Architects, this early 19th-century remastered home is filled with modern amenities, including radiant floors, professional-grade appliances and state-of-the-art technology. The landmark building has its original facade, northern and southern exposure and is conveniently located near the West Village, Soho and the Meatpacking District.
