## **Six homes anchored by stylish and stunning columns**

As far as decorative details go, few lend a space more industrial-chic-style cred than a steel or cast-iron column. What were once largely practical architectural elements (supporting the beams that held up the ceiling), now make a distinctive design statement. Here, six prime examples:

*CORE*

Gunmetal columns and wood beams accent the living space of this 3000-square-foot, three-bedroom, three-and-a-half-bath loft at [284 Lafayette Street](#) (yours for \$5.85 million).
