

## 99 Havemeyer Half Sold Out

Categories: [Sales](#), [Williamsburg](#)

99 Havemeyer launched back in early days of summer and it took a couple months for sales to get moving. When we checked in August, the broker commented on the thread that two units were signed with another in contract review. The building has just six units, so when a third unit went into contract it was time to send out an announcement that the building is now 50 percent sold. Prices for these one- and two-bedroom units are all around the \$600,000 range.
