## Construction Update: The Fitzroy

August 10, 2018

Looking up at the north facade.

Looking up at the north facade.

Facade installation is nearing completion at The Fitzroy, JDS Development Group and Largo Investments' 10-story luxury condo tower adjacent to the High Line. Roman and Williams are responsible for the design, which they claim was inspired by the iconic New York architecture of the early 20th Century. The facade features green terracotta panels with large copper-clad oak windows. When completed, the project will include 14 homes ranging from two- to five-bedrooms.
