NEW LISTINGS

This coveted corner two-bedroom, 2-bath home on Sutton Place South has just been listed by CORE's Elizabeth Kee for \$1.249 million. The apartment, at 25 Sutton, offers the beauty of north, east and south exposure, with expansive river and city views. North and East facing windows frame a picture featuring the Queensboro Bridge. To the South and East, watch the city's nautical traffic on the East River from the double glazed tilt-and-turn windows in the living and dining rooms. The full-service, white glove co-op has a parking garage, fitness room, children's play room, and a resident's private garden terrace on the river. Utilities are all included in the maintenance.
