The Real Estate Corner: New Tribeca Loft with “Selling New York” Twist

As today marks the premiere of another great season of ‘Selling New York,’ we wanted to highlight a property from one of the featured companies. CORE Group has the rights to a new development in Tribeca called 83 Franklin, and boy is it perty. The newest rental loft conversion in the area, 83 Franklin features Italian-made cabinetry, high ceilings, common roof deck, children’s playroom and more. Take a look inside one of the units and let us know what you think. Ps- our favorite space in the apartment is the gorgeous kitchen. We love those glass tiles!
