Checking in on Rising 241 Fifth Avenue Condo Building

While 245 Fifth Avenue has been enjoying its permanent winter, construction has continued at 241 Fifth Avenue, a rising ODA-designed condo building. New York YIMBY has a fresh construction update, and things are pretty far along! The 210-foot tower will have 46 units, and pricing was originally said to be in the \$2 million to \$2.5 million range. The project received a stop-work order in mid-December due to lack of an FDNY permit.
