ONE of two duplexes in a boutique Nolita building, this 3,924-square-foot, four-bedroom, 3½-bathroom condo is awash in cool, “contemporary and contextual design.” Such as the custom kitchen, with polished marble counters and Gaggenau appliances, and the master bathroom’s freestanding,

cast-iron tub and dual sinks with Barber Wilsons fixtures. A wood-burning fireplace warms up the “expansive” living/dining area, and, come spring, you can take advantage of the “grand” private terrace. **Agents: Emily Beare and Tim Crowley, Core, 212-726-0786 and 212-726-0763**

GRACED with 11½-foot ceilings, this penthouse condo features three bedrooms and 3½ bathrooms in 3,011 square feet, plus white oak plank floors and custom brass fixtures from Waterworks throughout. Should you need more

outdoor space beyond your private 455-square-foot terrace, the building has a common rooftop with “panoramic” city views, along with a fitness center, playroom and dog-washing station.
