This “meticulously renovated,” never-before-lived-in, two-bedroom, 2½-bathroom penthouse co-op — sun-drenched, with three fireplaces and panoramic vistas of the city — also features a 1,900-square-foot terrace to better eyeball those river-to-river views. The master bedroom, reached through two French doorways, has a marble soaking tub, stall shower and double sinks for tandem teeth-brushers. Your non-perishable food will live the good life, as well, stashed inside the state-of-the-art kitchen’s St. Charles custom cabinetry, while the central A/C spans five zones.
