Dream Homes: 45 Walker Street

TriBeCa, \$7.25 million

The location of this condo loft — on Walker Street, between Church and Broadway — is spectacular, but so is the space: a full 4,781-square-foot floor with four bedrooms, four bathrooms, two home offices, a den, a study and an open, modern kitchen — all of it recently renovated. And there are those great loft details: lots of oversized windows (14 of 'em), high ceilings and exposed columns.
