## **Knicks' Carmelo Anthony has a sick \$12M New York rental on the market (PHOTOS)**

Unless you get paid like **Knicks** superstar Carmelo Anthony, you can only look at the photos of his New York City condo above and wish you could afford it.

Or, maybe you also recently **signed a contract** in the neighborhood of \$124 million, in which case: Have we got a home for you!

**The Post** reported earlier this month that Anthony's rental on New York's Upper East Side is on the market and will cost \$12 million. Here are some of the details of the five-bedroom pre-war condominium **from CORE**:

"Upon entering from the private elevator landing opening directly into this exceptional 10 room residence you are drawn to the beautifully appointed entertaining space featuring breathtaking romantic Central Park views, lofty ceilings, a gas fireplace, living, dining and

library room as well as a versatile den/media room and office space. This residence has been meticulously constructed with plaster coffered ceilings and moldings, solid oak wood floors, solid core doors and recessed LED lighting."

It's the perfect place to rest **while rehabbing from knee surgery.**

*A private elevator landing provides a refined entry to the modern ten-room residence. The unit's main living area features oak floors and coffered ceilings.*

*A large gas fireplace centers the living room, and the many windows along the western wall provide expansive views of Central Park.*

*This handsome bath features Bianco Dolomiti marble, Dornbracht fixtures, and heated floors.*

*Idyllic treetop views of Central Park, with the skyline beyond, create a calm atmosphere high above Manhattan.*
