Seen & Heard: 83 Franklin Update

Some updates on 83 Franklin, the building I wondered aloud about last week. It's being converted to residential rentals, says Core's Doron Zwickel, and its website just went live. There will be 11 apartments, most around 2,000 square feet. The floor plan shown is of a north-facing apartment. The ground floor will be commercial, but exactly what has not been determined (or perhaps announced).
